THE CARIBBEAN TOUR – 2007

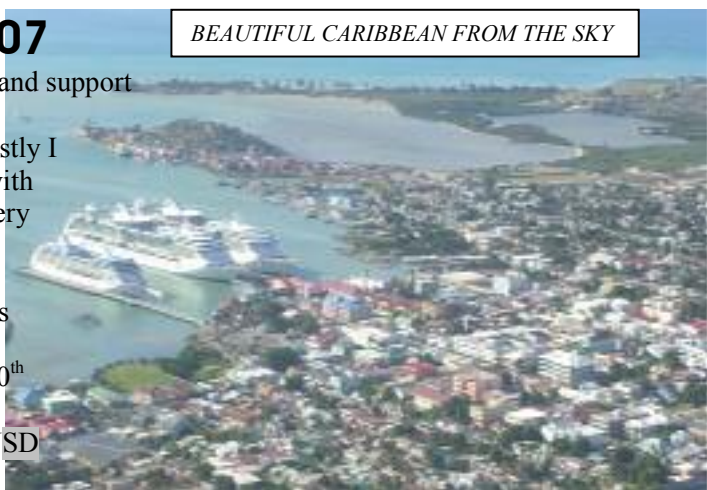

BEAUTIFUL CARIBBEAN FROM THE SKY

I really want to thank you for all your prayers and support and standing with me in every step to do this impossible mission to the Caribbean Islands. Firstly I started out preparing for this tour in Oct. 2006 with just 1 contact and God was so faithful that in every island he provided his children to host me and organize events for me.

The biggest challenge was the VISA's and it was amazing how God provided all the visa's in His time and I got my passport at 10:00 pm on the 30th Jan and I left Bangalore, India at 2:20 am on the 31st of Jan. to Kingston, Jamaica. I spent 7000 USD for my air tickets 0 dollars for food and accommodation during the 34 days of travel to 22 islands and once again God kept his promise of provision. This was my most expensive travel I had ever done and I did not have enough faith that God would provide all the money.

Coming to the Caribbean Islands the most shocking situation was to see that majority of the children are born out of wedlock, lot of single mothers and indiscipline. It really broke my

heart and God started to impress on me to challenge the high schools to live a life of purity and holiness specially in the area of sexuality & relationship so that they will be a different New generation.

HIGH SCHOOL IN CAYMAN IS

There were some amazing testimonies that came out of this tour and there is not enough room to write and I have just chosen very few of the lot. The time in Cuba was amazing one of the divine encounter was I started to share about my life and music to a group of musicians who performed in the resort and they ended up listening to the gospel for about 2 hours and in the end they autographed their CD for me writing, "God bless U" and I was so thrilled to see that writing keeping in mind that it was a communist country. There are so many stories from CUBA but can't mention due to security reasons. In Haiti God gave me the opportunity to minister to the Ministry of Justice and glory to God that about 70 of them listened to Luke 6:43-46 keeping in mind that Haiti is among the top 5 most violent nations.

MUSICIANS IN CUBA

There were various types of people from various faiths who committed their lives to the Almighty God and one such was the financial minister's daughter of Montserrat, Amer-Indians in French Guiana, students

Well normally my experience with the politicians during the events is that they just stay for about 10 to 15 min. and then they leave but God was so favorable that during my concert in Anguilla the Governor Mr. George and his wife stayed for the whole concert and in the end greeted me and then left. This was so honoring for me as it was part of God's promise for my life that He will not make me the tail but the head only for His glory.

MINISTRY OF JUSTICE - HAITI

GOVERNOR OF ANGUILLA

.One other challenge was the outward appearance, I purposely had my hair braided so that I could share to the people about the importance of the heart. In some of the countries braided hair for a man meant being feminist or a rastafarian. Most of the places people changed their perspective towards the outward looks but there was one place in Martinique where I was asked not to be the main speaker due to my hair and I challenged them with the little time I had to not judge out the outward appearance. And the other aspect I challenged is to redeem the STEEL PAN as it has been termed as a Worldly Instrument due to it's association with the carnival. But I used my Album – When the Music Fades and talked about redeeming the instruments & culture for God.

On the whole it was a miracle that I was able to finish this tour taking 31 flights in 34 days. And by God's grace Fr. Guiana was my 134th country and from the 7th to 11th I ministered in various parts of Switzerland and came back to India on the 12th of March. Please continue to pray for me as I prepare to leave to Myanmar, Bangladesh, Jordan, Syria and Lebanon.
